

LAPTOP GUARD

PennVention 2016

Bernardo Herrero (SEAS, MSE '15)
John Masson (SEAS, BSE '17)
Chris Polster (SEAS, MSE '16)

LAPTOP THEFT Today

Large Opportunity

- More than 2 million laptops are stolen, lost, or misplaced in the US annually
- The FBI estimates that 10% of all laptops purchased in the US will be stolen within the first year of ownership
- Educational and research institutions report the most lost or stolen laptops
- Over 194 million laptops were purchased in 2015.

LAPTOP GUARD **Solves These Problems**

Load sensor alarm that protects laptops from being stolen in public settings

Loud siren when laptop is moved

Text message response when alarm goes off

LEDs to indicate armed & disarmed

Smart Load sensor technology

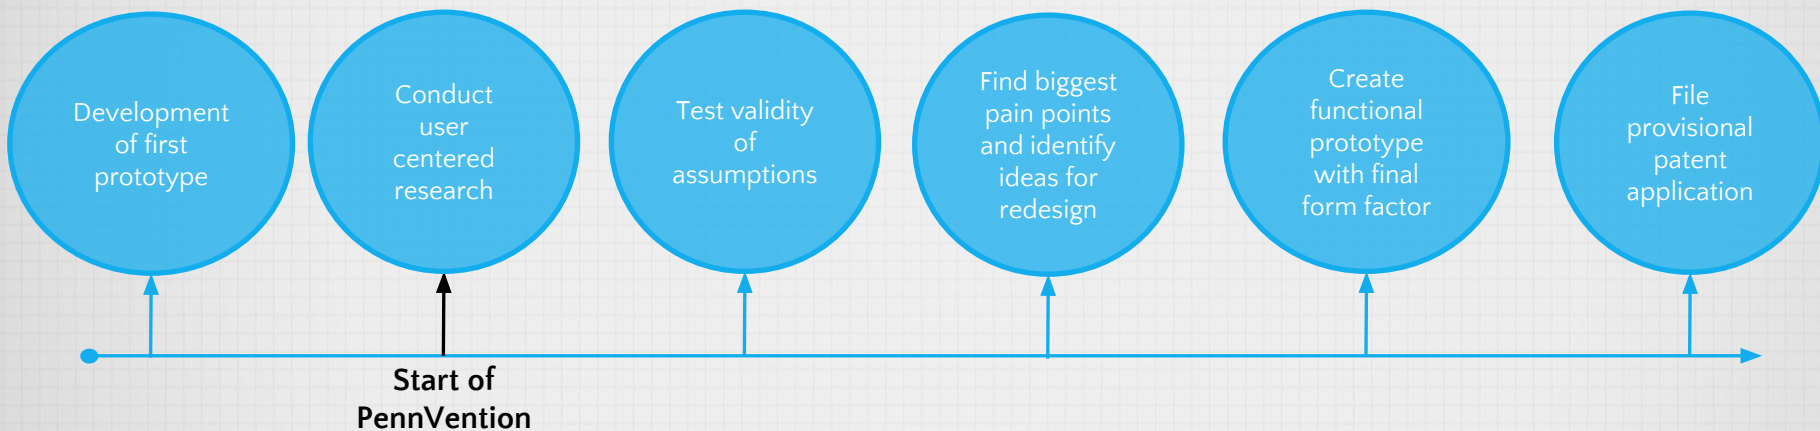

USB enabled charging

Wifi Configured

STEPS TOWARDS Minimal Viable Product

MEET THE TEAM

BERNARDO HERRERO

Mechatronics engineer from Argentina with several years of working experience in the industrial construction, oil and gas, and the automation industry.

JOHN MASSON

Electrical engineer with experience in development projects with Arduino type embedded processor platforms.

CHRIS POLSTER

Bioengineer at CHOP whose interactions with doctors, engineers, and technicians has made him adept at managing and developing contacts and productive relationships throughout industry.
